

# Series of Hybrid GMCB (SFMG Type)

Standard references : ANSI/IEEE C37.013

		Rated continuous current (kA)		
		8	11	22
Rated short-circuit current (kA)	63	 20-SFMG-63A	 20-SFMG-100	 20/30-SFMG-125
	100	In case of applied forced-air cooling, the maximum current capacity will be 22kA, and depends on the cooling system design.		
	125	In case applied of forced-air cooling, the maximum current capacity will be 44kA, and depends on the cooling system design.		
Operating mechanism (CB)		Spring ( BM-2 )	Hydraulic ( OM-3 )	Hydraulic ( OM-3 )
